

APPLICATION FOR PERMIT

Serial No. 4101

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Rate of first receipt and filing in State Engineer's office AUG 12 1916
Returned to applicant for correction _____
Corrected application filed _____

The undersigned Metropolis Land Co.
Name of applicant.
of Metropolis, County of Elko,
State of Nevada, hereby make s application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated... (If applicant is a corporation give date and
place of incorporation.) Massachusetts.

1. The source of the proposed appropriation is Trout Creek,
Name of stream, lake, or other source.
2. The amount of water applied for is 3 second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for Municipal supply and domestic purposes.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
point: This is an application to change the point of diversion,
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated
place of use and manner of use. see supplemental sheet.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it

should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Irrigation will begin about _____ and end about _____
Month.
_____, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horse power.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.

- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____
6. Estimated time required to construct works _____

Returned to applicant for correction _____

Corrected application filed _____

The undersigned, METROPOLIS LAND CO., a corporation organized under the laws of Massachusetts, authorized to do and doing business in the State of Nevada with its principal office in Nevada at Metropolis, Elko County, Nevada, hereby makes application to change the point of diversion, place and manner of use of a portion of the waters heretofore appropriated and beneficially used as hereinafter shown.

1. The source of the water supply of the proposed change is Trout Creek.

2. The quantity of water desired to be changed is three (3) cubic feet per second.

3. The water is to be used for domestic use and municipal supply to and by the town of Metropolis and the residents or inhabitants thereof. The approximate number of persons to be served is 150, and the approximate future requirements is _____.

4. The water is to be diverted from its source at the following point, - in the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 8, T. 39 N.R. 62 E., M.D.M.

5. The existing points of diversion (manner of use) under the former appropriation are as follows, - points of diversion in Sections 8, 19, 30 and 31, T. 39 N.R. 62 E., M.D.~~E.~~ M. - used for domestic, irrigation and stock purposes.

6. The water, herewith desired to be changed, has been beneficially and continuously used, in connection with other water from the same source, upon the following described lands, to-wit: Section 12, T. 39 N.R. 61 E., and Sections 19, 29, 30, 31 and 32, T. 39 N.R. 62 E., and Sections 1 and 2 T. 38 N.R. 61 E., M.D.M.

7. The number of acres heretofore irrigated with the water, herewith desired to be changed, and other water from the same source, and by and through the same system, consists of approximately 600 acres.

8. The estimated cost of the proposed works is \$24,555.67.

9. The estimated time required to construct the works is sixty days.

10. The water has been used heretofore for domestic and stock purposes throughout the entire year, and for the irrigation of the lands above mentioned from April 15th to September 1st each year.

11. Remarks: Applicant has acquired all property rights, including the land and water owned by Pacific Reclamation Company, also additional water rights. The permit sought is to enable the applicant to more scientifically and economically administer and conduct its entire system for the development, cultivation and irrigation of lands, and to conserve the water for the benefit of applicant and those who have acquired, or who may hereafter acquire lands or water rights from applicant in connection with the reservoir on Bishop Creek, and the waters of Johnson, Bishop, Trout, Spring and Burnt Creeks.

This application should be considered in connection with proofs of appropriation and maps accompanying same heretofore filed in the office of the State Engineer, and all other data heretofore filed in the office of State Engineer concerning the waters of the above-mentioned streams and the use thereof by the Pacific Reclamation Company, its grantors or predecessors in interest, and the receiver of said Company, and applicant.

Serial No. 4101

APPROVAL OF STATE ENGINEER.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of the waters of Trout Creek, is issued with the express understanding that no prior rights will be affected thereby, and with the further understanding that no new rights are granted herewith. No definite amount of water is allowed under this proposed change but the same is limited to that quantity, if any, which will ultimately be determined to be held by the applicant under a vested right. In view of the fact that permit No. 4102 is also issued for a change in the point of diversion and place of use of the waters of the same source herein involved, namely Trout Creek, as a further condition of this permit, it is understood that the applicant will, in the event that the vested right is determined at the time of filing proof of beneficial use of water, separate the amount beneficially used under each of the two permits. A map must also be filed within nine months from the date of approval hereof, showing definitely the old points of diversion and places of use of water and the proposed new points of diversion and places of use, together with any other data pertaining to the proposed change. A standard headgate and weir must be installed at or near the new point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of water under this proposed change at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.

Actual construction work shall begin on or before May 1, 1918.

Proof of commencement of work shall be filed before June 1, 1918.

Work must be prosecuted with reasonable diligence and be completed on or before July 1, 1918.

Proof of completion of work shall be filed before August 1, 1918.

Application of water to beneficial use shall be made on or before

July 1, 1921. Proof of the application of water to beneficial

use must be filed with State Engineer on or before August 1, 1921.

WITNESS MY HAND AND SEAL this 17th day of October, 1918
